The following collection of one hundred of my "BEST" or "FAVORITE" Gladiolus contains most of the beautiful named varieties of Eugene N. Fischer; a few of Clark Brown's; a considerable number of the best of Kunderd's; a few of Diener's, and others that are beautiful. It contains many that have scored from 80 per cent to 93.6 per cent, according to the Symposium of the American Gladiolus Society completed in the fall of 1924, and published in the January, 1925, issue of the *Bulletin* of the American Gladiolus Society.

We would advise all flower lovers to plant a considerable number of Primulinus Hybrids for their home use. The Primulinus type is very dainty for a dining-table decoration.

I will donate six Number One bulbs of Primulinus Primadonna or six Number One bulbs of Dr. R. T. Jackson, or one bulb of Sunnymede or two bulbs of Mrs. William E. Clark to every one who will send me a check for \$2.00, made out to the American Gladiolus Society for a new membership; or to any one who will send me a check for \$3.00, made out to the New England Gladiolus Society, for a new membership. Twelve months subscription to the A. G. S. Bulletin is included with each new membership.

We would suggest that all members of Garden Clubs devote a part of the garden to the cultivation of the Gladiolus—the King of the Flowers.

If you are a garden lover, you should subscribe for *Horticulture*, published by the Massachusetts Horticultural Society, Boston, Mass., for the sum of one dollar a year—24 issues.

I wish to thank all those new members who made it possible for me to get the beautiful Davis Trophy awarded me for winning the Membership Contest. If any other member of the A. G. S. will turn in to the Secretary sixty-six or more new memberships before August 1st, 1926, I will donate to the one securing the largest number a William E. Clark Trophy which will be a Twin to the beautiful cup received by me.
